Bonds/Debt and Water & Sewer Rate Information

Bonds/Debt

The District has incurred debt (e.g. revenue bonds) to purchase, upgrade or replace capital improvements such as storage tanks, water and sewer lines, and treatment facilities. Debt is generally repaid on a semi-annual basis over a period of 20 to 30 years. The District collects monthly service fees to repay these bonds.

- **2013 Water Debt Service**

In February 2013, the 1998 Installment Sale Agreement executed to finance the acquisition, construction, and improvement of water storage and treatment facilities was refinanced. The loan was issued for \$3,117,831. The Monthly payment for this bond is \$6.78 and it is paid by all GCSD water customers.

- **2014 Water Debt Service (formerly called 2007 Water Debt Service)**

This \$5,031,500 debt was incurred in May 2007 to pay for federal and state mandated upgrades to the two water treatment plants, construction of an emergency water supply system, and upgrade to the radio telemetry and control (SCADA) system. The District had been collecting \$5.13 toward this debt service charge. The monthly amount was increased to \$8.79 in May 2007. The loan was refinanced in February 2014. This debt service is paid by all GCSD customers. The installment sale agreement matures in 2027.

- **2014 Wastewater Debt Service (formerly called 2007 Wastewater Debt Service)**

This \$4,529,000 debt was incurred in June 2007 to pay for state mandated upgrades to the District's sixteen sewer lift stations. This loan was refinanced in June 2014. The monthly debt service is \$20.42 and is paid by customers who are on the sewer systems tributary to Lift Station 7. The installment sale agreement matures in 2027.

Water and Sewer Rates

- **Monthly Fixed Rate/Minimum Charge for Water and Sewer**

This charge provides for the fixed annual costs of operating the buildings, grounds and facilities of the District, irrespective of the quantity of water used or occupancy status.

- **Water and Sewer Consumption (Variable Rate) Charges for Water and Sewer**

This charge provides for the variable costs of operation and maintenance of the systems, directly proportional to the amount of water used.
