

BOARD MEETING AGENDA SUBMITTAL

TO: GCSB Board of Directors

FROM: Peter Kampa, General Manager

DATE: April 22, 2025

SUBJECT: Agenda Item 4C: Establishing a Special Meeting for the In-Person Workshop Scheduled for May 15, 2025, Regarding the 2025 Water and Sewer Cost of Service Study and Proposed Rate Schedule

RECOMMENDED ACTION:

I move to formally establish a Special Meeting to be held on Thursday, May 15, 2025, for the purpose of conducting an in-person public workshop related to the 2025 Water and Sewer Cost of Service Study and Proposed Rate Schedule.

BACKGROUND:

In alignment with Board direction and community interest related to the 2025 water and sewer Cost of Service Study and updated rate schedules, the District has scheduled a public workshop for May 15, 2025 to be held at the Groveland Community Resilience Center. This workshop is intended to provide ratepayers and community members with a comprehensive overview of the cost of service study and district costs in delivering water and sewer services, the rate structure options and their potential impacts on the services and customer bills. It also offers an opportunity for public comment and input prior to final consideration of increased rates by the Board.

In order to ensure appropriate formality and transparency, and in the event that a majority of Board members attend this workshop, the Board must establish it as a Special Meeting in accordance with the Brown Act and District policies governing public meetings; however, no formal Board presentation will be given, and no Board action will be taken at this public workshop.
