The ideal candidate must be a team player, self-motivated, strong work ethic, physically able to perform required job duties, enjoy working with the public and co-workers, and strive for continuous improvement/advancement and exceptional job performance.

MINIMUM QUALIFICATIONS

- High school diploma or equivalent
- Possession of a current valid Grade I or higher Wastewater Treatment Operator Certificate issued by the California State Water Resources Control Board
- Possession of a current valid California Driver's License

SUBSTITUTIONS

The following may substitute the minimum certification requirement:

- Possession of a Grade I or higher Water Treatment Operator Certificate issued by the California State Water Resources Control Board

KNOWLEDGE, SKILLS, AND ABILITIES

KNOWLEDGE OF: the operations and maintenance requirements of a wide variety of water and/or wastewater treatment plants, machinery and equipment.

ABILITY TO: Achieve performance goals while working independently and with little to no supervision, advance in state certifications and job skills/responsibilities, uphold the positive work culture of the District.

ESSENTIAL DUTIES:

- Operate SCADA computer equipment to control and monitor flow of water and/or wastewater treatment and processing chemicals through the treatment plant and water distribution system; monitor gauges and meters and record meter readings; maintain shift log.
- Observe variations in operating conditions; interpret computer, meter and gauge readings; check, standardize, and calibrate instruments, analyzers and chemical feed pumps; start and stop electric driven pumps and motors to control and adjust flow and treatment processes.
- Collect samples and perform routine laboratory tests and analysis; determine chemical and physical characteristics.
- Inspect mechanical equipment for proper working order and prepare/submit work orders for mechanic and/or electrical maintenance attention; perform routine maintenance work.
- Participate in preparation of reports to various external regulatory agencies, as well internal divisions and departments.
- Maintain records and documentation; respond to customer questions and complaints; and assist in oversight and training of less experienced water treatment operators.
