

NOTICE TO CUSTOMERS CHANGES TO WATER AND SEWER RATES

The Groveland Community Services District (GCSD) is committed to providing safe, reliable water and sewer services to our community. The GCSD Board of Directors approved new water and sewer rates at a public hearing held on June 18, 2025. The approved rates will be effective July 1, 2025 and appear on your monthly statement beginning August 1, 2025.

As part of these changes, the District will move to a flat monthly rate for residential sewer service, eliminating the previous method of billing based on monthly water consumption. Commercial sewer rates will remain unchanged for the fiscal year 2025/26.

*Residential sewer rates are now billed at a flat monthly rate. Volumetric charges based on water usage are no longer applied to residential accounts.

**Commercial sewer rates will continue to include volumetric charges based on water usage. These charges are billed in addition to the fixed monthly sewer rate.

ATTENTION RESIDENTIAL SEWER CUSTOMERS:

As we transition to a fixed rate sewer billing structure from a usage based structure, we want to clarify how this shift will appear on your upcoming bills:

- **July 2025 Bill:** This bill will include sewer consumption charges based on your water use from May to June, as we bill sewer usage in arrears.
- **August 2025 Bill:** This bill will include sewer consumption charges based on your average water daily use for the remaining days in June, completing the transition period.
- **September 2025 Bill:** This will be the first bill reflecting the new fixed monthly sewer rate only. **There will be no additional consumption-based sewer charges moving forward.**

We appreciate your patience during this billing transition and are committed to making the process as smooth and transparent as possible.

If you have questions about your bill, or the new rate structure, please contact us at the District Administration Office at (209) 962-7161 or via email at info@gcsd.org.
