What We Do

The District is responsible for providing water, wastewater treatment, fire protection, and park services to the community. The GCSGD community consists of Big Oak Flat, Groveland, Pine Mountain Lake, and some small surrounding areas.

Pine Mountain Lake located in Groveland, CA

Yosemite National Park near Groveland, CA

Area

Looking to get out of the city or valley grind, or just a change of scenery? Groveland CSD is located in a picturesque gold-rush era foothill community 25 miles from Yosemite National Park. Hiking, fishing, hunting, boating, camping, and golfing are just some of the activities that are enjoyed in our backyard.

See the other side for more information about the position and how to apply.

About The Position

Under varying degrees of supervision, depending on their level within the Series, the Maintenance Mechanic is expected to learn, perform, and advance in their duties within the District. Those duties include the operation, repair, and maintenance of District facilities and grounds, water and wastewater treatment systems, the water distribution system, and wastewater collection/pumping systems. They are also expected to assist members of the other work groups and departments.

The ideal candidate must be a team player, self-motivated, strong work ethic, physically able to perform required job duties, enjoy working with the public and co-workers, while striving for continuous improvement, advancement, and exceptional job performance. Experience within the water and wastewater industry is also desirable.

Minimum Qualifications for Each Position Within the Series

Maintenance Mechanic I: Class A driver's license within 12 months of hire; CWEA Mechanical Technologist Grade 1 (or equivalent) within 12 months of hire

Maintenance Mechanic II: Class A driver's license; CWEA Mechanical Technologist Grade 2 (or equivalent); 4 ASE Certifications in either "Automobile & Light Truck" or in "Medium-Heavy Truck" within 12 months of appointment

Maintenance Mechanic III: Class A driver's license; CWEA Mechanical Technologist Grade 3 (or equivalent); Master ASE Certification in either "Automobile & Light Truck" or in "Medium-Heavy Truck" within 12 months of appointment

Basic Entry-Level Requirements

- High school diploma or GED
- Valid and current California Class C driver's license
- Pass Background Check, drug test, and physical examination
- Willing to work weekends and unusual hours
- Good writing and verbal communication skills
- Ability to accurately document work performed

Highly Desirable Abilities and Experience in Performing

- Electrical and electronic repairs
- Plant mechanical repairs
- Automotive and truck repair
- Light, medium, and heavy equipment repair
- Welding and fabrication
- Landscape maintenance
