

BOARD MEETING AGENDA SUBMITTAL

TO: GCSB Board of Directors

FROM: Bob Asquith, TCTC Member

DATE: February 14, 2023

SUBJECT: Agenda Item 6E: Presentation Regarding Tuolumne County Transportation Council (TCTC) Evacuation Needs Assessment and Communication Strategies Report

RECOMMENDED ACTION:

Staff recommends the following action:

Discussion item only, no action required at this time.

BACKGROUND:

This item is before the directors today at the request of Bob Asquith who has been a member of the Advisory Board for Tuolumne County Transportation Council (TCTC) for the past 7 years.

Following the Paradise Fire, California has created a grant pool to allow communities to assess their Evacuation and Emergency Communications Needs. TCTC received such a grant. They selected a consultant to define those needs with input from many agencies. There are approximately 10 areas of Tuolumne County where the conditions are similar to those in Paradise that created very negative outcomes for evacuation.

I have reviewed the final report and found some significant deficiencies. I will review those deficiencies as a report to the GCSB BOD. The full report is linked below for online viewing but not included in the agenda packet due to size. A paper copy can be produced at the Board's request.
